

**STILL?**

Why not  
sparkle  
all the time?

**Discover the Bubblebox system:  
Sparkling Water fresh from the  
faucet puts more sparkle in your life.**

**BubbleBox**

puts more sparkle  
in your life

# Let it Bubble!

Makes your home faucet a source of sparkling refreshment

**MORE CONVENIENT**

Sparkling water direct from the faucet. No more carrying heavy bottles.

**SIMPLY GREENER**

It feels good: Reduce waste and CO<sub>2</sub> emissions.

**REALLY ECONOMICAL**

**CLEVERLY  
SIMPLE**

Installs in any  
kitchen in just  
3 easy steps.

Take the taste  
test and discover  
the sparkly side  
of life

- + **Enervating and refreshing fine bubbles flow directly from your home faucet. Simply a pleasure.**
- + **Never has it been so easy to save money – and to help the environment at the same time.**

More  
convenient.

Simply let  
it bubble.

- + Direct from the tap
- + No heavy bottles to carry home and store
- + Simple to install
- + up to 100 Liters of sparkling water from each CO<sub>2</sub> cylinder
- + Adjustable CO<sub>2</sub> concentration

#### **It doesn't get any easier.**

No heavy bottles. Refreshing sparkling water direct from the faucet – any time you have thirst. BubbleBox makes your kitchen into a source of sparkling refreshment. The best part: it's so easy to install. Simply connect to your cold-water line, and enjoy sparkling water.

Simply  
greener.

Doing good for  
the environment  
was never so  
easy.

---

- + **Less waste**
  - + **no plastic bottles**
  - + **Reduces CO<sub>2</sub> emissions**
- 

**Did you know...**

... it takes 7 liters of water to make the plastic bottle for 1 liter of water? And that making bottled water uses over 2800 Megawatts of electricity? And all that plastic creates 1.5 Million tons of waste, and produces as much CO<sub>2</sub> as 620,000 diesel vehicles?

With Bubblebox, you don't just enjoy sparkling water, you enjoy the feeling of doing the right thing for the environment - no more plastic bottles, a lot less waste and lower CO<sub>2</sub> emissions.

Really  
Economical.

Easy to save.

- + costs less than bottled water
- + no more carrying heavy bottles
- + good for the household budget

**Enjoy sparkling water and save with every sip.**

With BubbleBox, you don't just save the high cost of bottled water, but also the time and effort of buying and it bring home. Now sparkling water is as easy as turning on the faucet. Makes up to 100 liters of sparkling water for every CO<sub>2</sub> cylinder.
