

Lifting and Lowering kit 25m

WK52025

Simple lifting kit for hauling including specialist locking pulley

The lifting kit is designed to lift and lower small to medium loads (5-50kg) and ideally suited to the renewables, construction and telecoms industries.

System can be rigged for basic progress capture using the Cyclone locking pulley or for more mechanical advantage using the pulley as a "V" rig (2:1) to increase the load range. Lowering is achieved by manual rope control whilst releasing the progress lock.

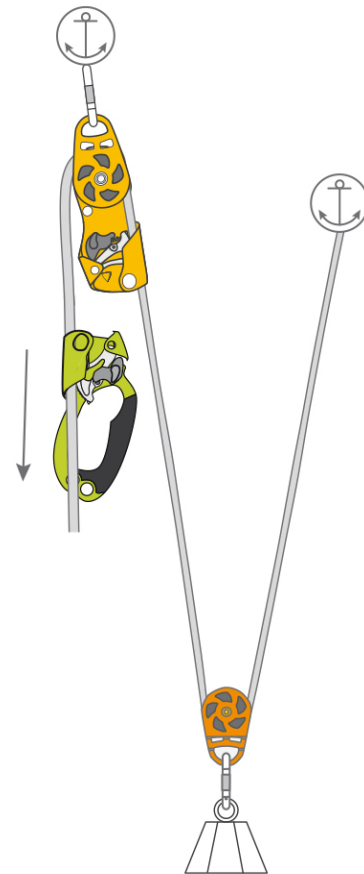

Extra lifting force is available by employing the Pulsar to get more grip onto the line when lifting.

The kit comes complete with:

- Specialist CYCLONE locking X-Cam pulley
- Pulsar handled rope grab
- Alloy, single sheave, rescue pulley
- 11mm diameter rope with sewn terminations for safety and strength
- Double-locking large hook for ease of load attachment
- Durable storage bag for protection
- 60cm Protected slings
- Triple Lock, Alloy, oval karabiners to attach to anchor points / pulley

Option: 25m, 50m or 100m

NB: Not certified for lifting persons.

Specifications:

NB: specifications and colour may change without notice.

Size: 25m

EN Test Mass:

Loading: 100kg SWL

Conformity: Various EN Approvals

Materials: Device: Stainless steel, Hook: Aluminium

Weight (kg): 4.50

Industries: Renewables, construction, telecoms

All our PPE, rescue and lifting equipment have both UKCA and CE conformity where applicable
